

RHS IB COURSE SELECTIONS FOR JUNIOR YEAR

NAME _____ STUDENT # _____

PREFERRED NAME _____

Directions for Student:

- In the right-hand column, write the names of the higher and standard level courses that you have chosen in order to pursue the IB Diploma. You must list **three higher level** and **three standard level** courses. Students will not be permitted to take 4 HL courses. If students choose to take two sciences, only one of them can be at HL.
- Teacher recommendations are required for Science, Math, and HL Art. Teacher will evaluate test scores, grades, exam grades, and semester averages.
- Waiver Process:
If the teacher recommendation and your course selection do not match, your parent may request a meeting with the recommending teacher. If after that meeting the parent wants to request a waiver, he/she can submit the Waiver Request Form available from the teacher or the IB office. Decisions will be made after semester 2 exams.
- Students will take Theory of Knowledge (TOK) during the second semester of junior year and the first semester of senior year.
- During junior year, students can choose to take Research classes or a Traditional Elective. Schedule permitting, students can take a Traditional Elective everyday semester one, and every other day semester two. Every other day electives will need teacher approval.
- Your parent must sign the form indicating he/she approves of your course selections for the IB Diploma.

PLEASE FILL OUT IN PEN
